

GOLF DAY

1st July 2009

Downs MicroSystems invites businesses across the Darling Downs to be a part of their Golf Day to be held on Friday 11th September, 2009 at the Toowoomba (Middle Ridge) Golf Club. As a sponsor, you will host three clients or business associates, to participate in the exciting event. We have structured the day as a four person ambrose event, so all golfers, no matter what their skill level, can participate in the day.

The Downs MicroSystems Golf Day will be an annual event designed to identify and establish important cross referral opportunities with professional colleagues and major clients. As one of our major strategic partners, HP stands to share in the growth opportunities provided through this venture.

We are seeking major sponsorship support for this event of a monetary contribution of \$550, including GST. Your sponsorship will entitle you to the following.

- One place will be reserved for your company representative to play in the competition.
- Positioning of your Company's signs, banners or displays (provided by you) on the course, advertising your products and services.
- Recognition of your sponsorship will be placed on event advertising that will be distributed to our clients.
- Sponsored themed hole: Feel free to come up with your own theme or contact us for ideas!

Or, you may wish to sponsor a prize at this Charity event. With all proceeds of the raffled prizes going to the Toowoomba Children's Hospital foundation, we encourage and welcome your donation of a Company product, or similar suitable prize. By participating in sponsorship on the day, you will receive free advertising for your company in the Golf Day handbook.

We request confirmation of your sponsorship by 30th July 2009 with contributions to be received at our office by 21st August 2009.

If you would like to accept the opportunity to be a sponsor of an event that will become an annual networking opportunity with the clients and business associates of Downs MicroSystems, please complete the attached application form. If you require further information please contact Wendy Burke on (07) 4639 3344.

Regards

Trevor Henderson
Managing Director
